

This is our Beautiful (and ONLY)
Home

It has been wonderfully stable
for over 10,000 years...

The Climate Nuggets Project:
**It's Time for
CLIMATE ACTION!**

Presented
to

The Happy Hour Stalwarts

at

CityPlace South Tower, West Palm Beach, Florida

March 10, 2026

Mac Lankford, Board President, Climate Nuggets, Inc.
<https://www.climate-nuggets.org/>

As we go through this talk,
think in terms of **ACTION**.

Do your Members of Congress even know
this??

How can you make them see what the
science is showing us??

What do we want them to do??

4

**The Problem is our
TRAJECTORY**

That is, where are we actually headed,
given our current behaviors?

TRAJECTORY

That is, where are we actually headed,
given our current behaviors?

Politicians like to talk about

- We don't have a problem
- It's not a big deal - we'll solve it someday

5

6

TRAJECTORY

That is, where are we actually headed,
given our current behaviors?

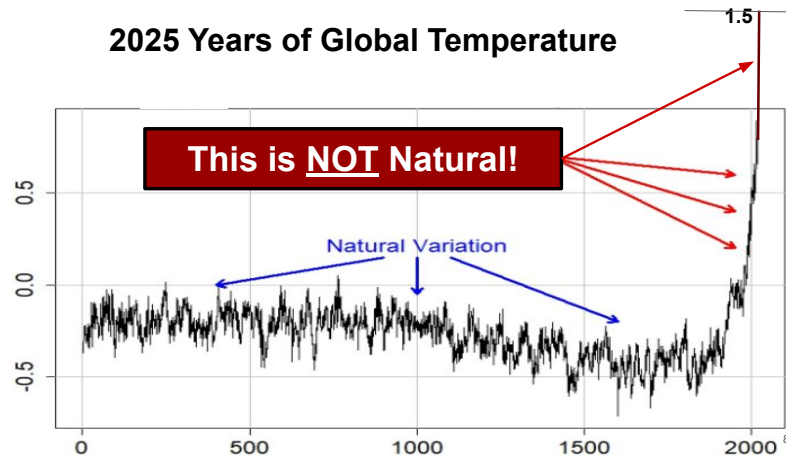

Politicians like to talk about

- We don't have a problem
- It's not a big deal - we'll solve it someday

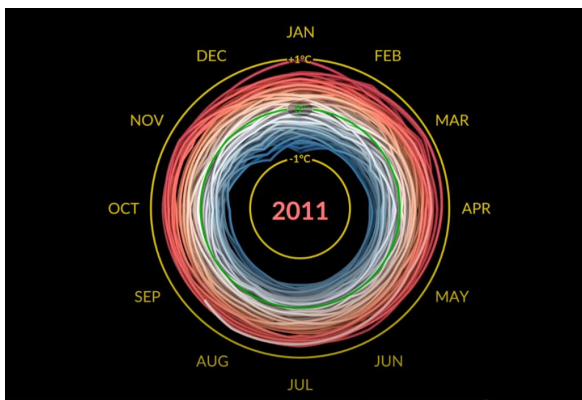

**Our TRAJECTORY IS TELLING A
COMPLETELY DIFFERENT STORY**

7

2025 Years of Global Temperature

The NASA climate spiral visualization

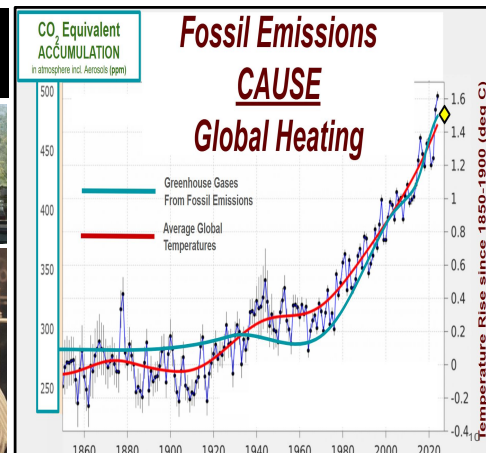

The temperature rise has
never been a mystery

First
discovered
by Eunice
Foote in
1856

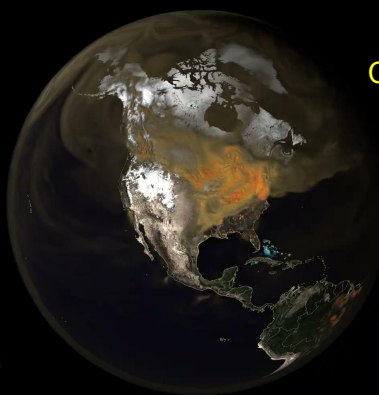

9

This video
shows how
Carbon Dioxide

- one of the
Greenhouse
Gases -
behaves over
North America

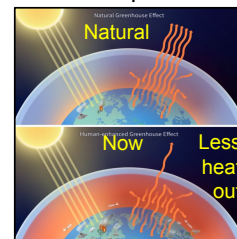

11

This is how
Emissions **CAUSE**
Climate Change

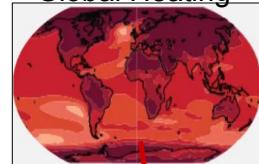

EMISSIONS

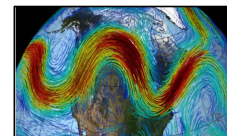

Greenhouse
Gases into the
Atmosphere

Global Heating

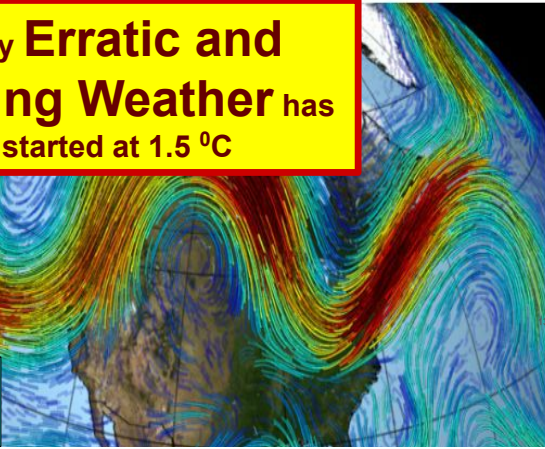

Climate Change

Increasingly Erratic and Intensifying Weather has already started at 1.5 °C

- Hottest days get a lot hotter
- Droughts get a lot dryer
- Downpours get a lot more intense

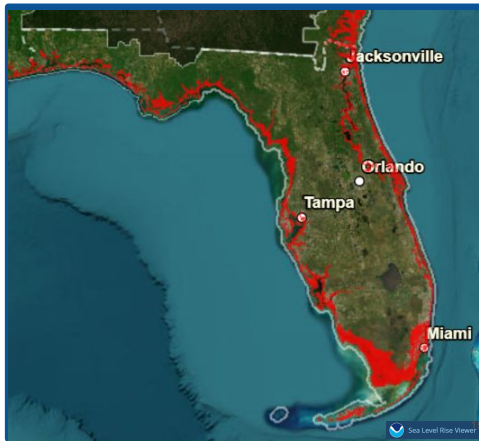

Rising Sea Levels and Extreme Sea Level Events have Already Started at 1.5 °C

MAJOR LAND LOSS has begun

Red depicts areas likely compromised by 2050

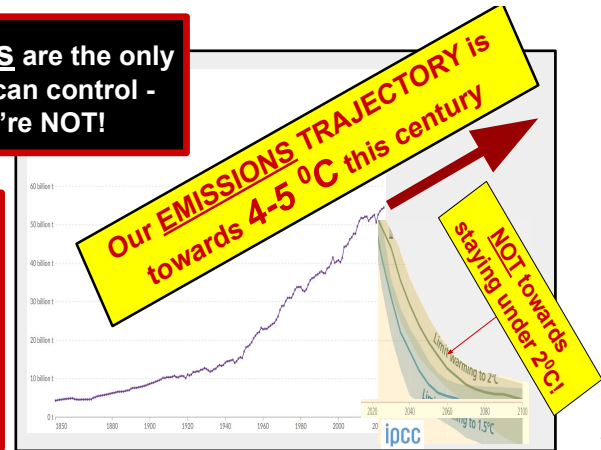

if we don't change our trajectory.

Emissions are the only things we can control - and we're NOT!

The 2015 Paris Agreement put the high-danger limit at 2°C.

We are heading to *Global Societal Disruption* by 2040-2070

16

This is where we are headed with our Current Behaviors

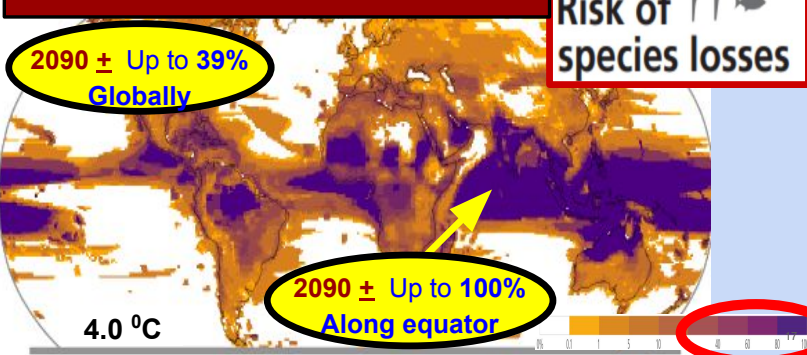

Enormous destruction of Species

Risk of species losses

2090 ± Up to 39% Globally

2090 ± Up to 100% Along equator

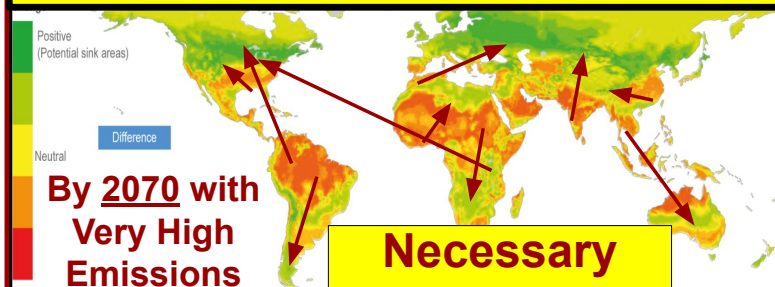

4.0 °C

GLOBAL WARMING → CLIMATE CHANGE → Societal DISRUPTION

By 2070 with Very High Emissions

Necessary Migrations??

18

So, the PROBLEM is:
Burning Fossil Fuels gives off EMISSIONS

We must
Reduce EMISSIONS
URGENTLY
and
Implement Improved Solutions!

19

MOST of us can't directly make the HUGE CHANGES required:

- Install non-fossil sources of Energy
- Force the **Emitters** to close down
- Install **new electric transmissions** lines
- Etc., etc.

20

But we all do have one tool!

Constituent Pressure
↓
Congressional Action

21

**CLIMATE
NUGGETS**

**CLIMATE
NUGGETS**

our NEW TOOL for
PRESSURING POLICYMAKERS

Addressed to a
Member of
Congress

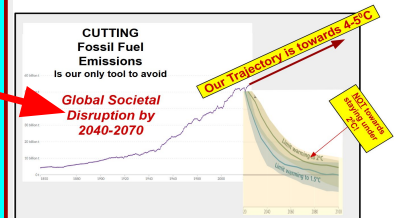

Here's a SAMPLE NUGGET:

Scientifically
Supported
information
(becomes the
language of policy
debates)

DEMAND
for
ACTION

Rick Scott,
EMISSIONS ARE THE PROBLEM -
NOT the solution!

The
Constituent's
Concern
Message

Work to CUT EMISSIONS!
Take this Seriously. I DO!

Link to
sources
and to
Climate
Nuggets

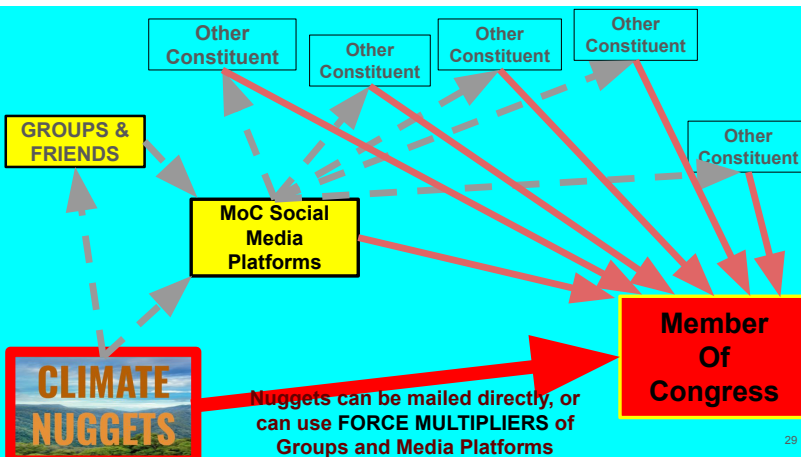

24

Climate Nuggets are flagging diverse issues...

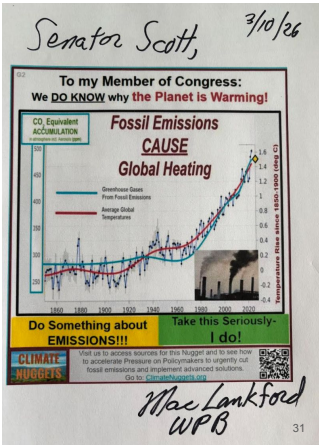

Nuggets are designed to:

1. **Clarify the issues** by providing scientifically sound information to constituents and policymakers
2. Show viable **SOLUTIONS & STRATEGIES** which can affect EMISSIONS
3. Become a core language of the discourse

Today's Action
Mail a Nugget to your
Member of Congress,
 with your own note if you
 like

- Find a Nugget in your Table Envelope
- Pick a Member of Congress and write a note on the Nugget
- Address an Envelope (we'll mail them)
- Fill out the Scorecard/sign-up

Climate Nuggets

Sign-up Sheet

If you would like to keep up with our progress with the Climate Nuggets Project, and receive new Nuggets as they are developed, you can sign up on our website: [ClimateNuggets.org](https://www.climate-nuggets.org), or simply give us your name and email today, and we'll get you signed-in.

Name (please print)	Email

Please return this Sheet to the Presenter after this Event

Climate Nuggets

Table Scoresheet of Nuggets Sent Out

At each Table, please record how many Nuggets were sent out. Our Goal is to mail and post 50,000 Nuggets by 9/1/26 to influence this Election Cycle. YOU are part of the ACTION!

Date:

Sent to Policymaker	Number Sent
Sen. Rick Scott	
Sen Ashley Moody	
Rep. Lois Frankel	
Others	

Please return this Sheet to the Presenter after this Event

This Month

Go to ClimateNuggets.org and look at our Prospectus - find a way to help?

Opportunities from our Prospectus

<https://www.climate-nuggets.org/opportunities-to-help>

More NUGGETS on our Site

<https://www.climate-nuggets.org/global>

1. Global Heating is Accelerating and our **TRAJECTORY** is disastrous
2. **EMISSIONS** are the Problem
3. **CLIMATE NUGGETS** are a way to clarify the issue and maximize pressure on Policymakers
4. Use our **WEBSITE** again and again to send Posts to your Members of Congress and **DEMAND MEANINGFUL ACTION!**
